Port Moresby Energy Storage Project Update

Overview

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

What is Port Moresby's energy grid power?

Project to Provide Resilience to Port Moresby's Energy Grid Power is considered as the major backbone for all nations throughout the world including PNG on the basis of which the development of the country depends. Within this context, Energy has become an essential element in man's efforts to meet basic human needs, as energy generates power.

Will niupower Port Moresby power station save png?

“ NiuPower is pleased and proud to have developed PNG's first ever dedicated grid-connected gas fired power station. Our customer, PNG Power Limited, are on record as saying that the NiuPower Port Moresby Power Station coming online will save them, and thus the nation, up to K100 million annually.

How many turbines does Port Moresby powerhouse have?

The powerhouse has four turbines with a total installed capacity of 50 MW. Once fully operative, the plant will provide electricity to about 40 per cent of homes and help PNG's Nation's Capital, Port Moresby, to meet its growing energy demands.

What is png hydro development Limited doing in Port Moresby?

The company PNG Hydro Development Limited has invested K650 million in the project which is one of Central Province's biggest assets that will supply electricity not only to Port Moresby but the whole Southern region in the near

future.

What are the infrastructure gaps in Port Moresby?

Infrastructure gaps remain acute, particularly in poorer areas of Port Moresby. 45 per cent of informal settlement dwellers in the city lack basic facilities such as electricity, potable water and sanitation (NCD Settlement Strategic Plan 2007-2011). This impacts directly on their ability to adapt to natural disasters and other climate hazards.

Port Moresby Energy Storage Project Update
