What is a power bank?

A power bank is a portable device designed to recharge electronic gadgets like smartphones, tablets, and laptops when you're on the move, or when you don't have access to a regular power source. Power banks vary in size, capacity (measured in mAh), and the types of devices they can charge, offering flexibility for users with different power needs.

What can you do with a portable powerbank?

Simply plug your device into a portable powerbank and receive power on the move. Your clients will love a promotional product which they can use on a regular basis, especially one which makes their lives easier. Never get caught out again with low battery for your smart phone or tablet.

Who is portable power technology?

Here at Portable Power Technology, we welcome challenges and create solutions. We work with our customers in the UK and across the world to provide off grid, backup and mobile power. Our experience helps us find solutions to many interesting and challenging situations: from movie sets to rural villages in Africa.

What does a branded powerbank do?

A branded powerbank will give them a gentle reminder of who you are, keeping you at the forefront of their mind. It will not only be appreciated and

used regularly.

How do I charge the power bank?

Start charging plug in a power bank and charge up the power bank with the digital tube flashing "number". After a full charge, the display "100%" remains on and you can stop the charging.
