

## SolarTech Power Solutions

# Selling solar power systems to Czech Republic

## Overview

---

What is solar energy in Czech Republic?

Solar energy is the radiation the Sun emits that can create heat, trigger chemical reactions, or create electricity. The total solar energy incident on Earth is far greater than the global energy needs at the moment and in the future. The report offers the market size and forecasts for Czech Republic solar energy in installed capacity (MW).

How much solar power does the Czech Republic have in 2021?

In 2021, the Czech Republic will have a solar installed capacity of around 2119 MW, with a renewable energy capacity of around 4415 MW. Czech Republic's renewable energy shares around 21.1% of the total electricity generation in the country.

Will the Czech Republic invest in solar power?

The Czech Republic will have hard time looking for someone willing to invest in the sector," the Czech Solar Association Chairman Jan Krcmar said. Majority state-owned electricity producer CEZ (CEZP.PR) plans to invest \$4.15 billion - four times its 2020 profit - into building 6 gigawatt of solar power capacity by 2030.

Why is solar energy so unpopular in the Czech Republic?

Solar energy has long been unpopular among Czech politicians since high compensation led to an uncontrolled boom in solar in 2009-2010, costing around 1.8 billion of euros in subsidies per year to the sector split between consumers and the government. The bill also raises special taxes paid by solar plants built in 2009-2010.

Why is electricity important in the Czech Republic?

Electricity plays a vital role as a factor in economic growth and social welfare, in so it is essential to have an accessible, reliable, and sustainable form of

energy. In 2021, the Czech Republic will have a solar installed capacity of around 2119 MW, with a renewable energy capacity of around 4415 MW.

How is the Czech energy sector governed?

3.2.1 The Czech energy sector is governed by a wide range of laws and regulations implementing European legislation. The main regulation is Act No. 458/2000 Coll., on conducting business and government supervision of the energy sector (Czech Energy Act).
