Serial number of the photovoltaic inverter

Overview

The serial number, usually ten digits long, is indicated on the type label on the front cover of the inverter. Alternatively, the serial number can be read off via a data logger: How to identify inverter serial number?

Inverter serial number can also be identified from the inverter LCD, on the right bottom of the LCD screen inverter serial number can be seen. Following is the image attached for the reference. Figure 2: Serial Number on the inverter LCD On the mobile application:.

How do I register an inverter with a different serial number?

If you have an inverter with one serial number for the lower Communication Unit and a different number for the upper Power Unit, register your product using the serial number shown on the type tag of the CU (lower enclosure). Log in to Sunny Portal. Select " Configuration > Device overview".

Who must provide data to the solar panel serial number Ledger?

Under the Renewable Energy Target, manufacturers and importers must provide data to the solar panel serial number ledger and inverter serial number ledger if: your products are on the Clean Energy Council's (CEC) approved PV module or inverter lists. If you have products included on the CEC-approved lists, you're known as a responsible supplier.

How do I register a solar inverter?

In the main menu select " PV plant > Registration ". Select the name of the inverter you wish to obtain device information for. After selection, confirm all menu items with " Enter ". Launch the user interface of the Sunny WebBox. The plant tree on the left displays all inverters in your plant and their corresponding serial numbers.

How do I find the type label on my inverter?

The type label can be found underneath the compartment. Launch the Sunny

Explorer. The plant tree on the left-hand side displays all inverters in your plant with their corresponding serial numbers. Select the inverter in the plant tree. Select " Settings " on the icon bar. Select the " Type label " parameter group.

How do I find the serial number of my Sunny beam inverter?

Navigate through the menu points " Service > Diagnostics > Device Information " and select the item " Sunny Beam " or an inverter. The device information of the selected inverter is displayed. Alternatively, you can view the serial number by removing the cover of the battery compartment and looking through the gap above the battery.

Serial number of the photovoltaic inverter

How to check the photovoltaic battery order number

Where is the serial number on a photovoltaic inverter? The serial number can be found at the bottom of the asset label which is located on the right side of the inverter, which is the top of ...

Where do I find the serial number of my SMA inverter?

May 17, 2023 · You can find the serial number, usually ten digits long, on the model type tag, which is typically located on the right-hand side of the enclosure of your SMA inverter.
