Solar Light Enhanced Tiles

Overview

What is a goodwe solar roof tile?

The GoodWe Sunshine Series is an integrated solar roof tile solution for pitched rooftops to replace traditional solar panels and framework for a sleek, aesthetically-pleasing result, that also maximises your rooftop space for more solar production. The integrated tempered double-glass structure ensures the safety of the roof structure.

Are solar tiles a good investment?

Solar tiles perfectly combine architecture, aesthetics and photovoltaic technology, making the entire roof look beautiful and elegant, with a strong sense of technology, and enhancing the value of the property itself.

Why should you choose Sunshine tiles?

The integrated tempered double-glass structure ensures the safety of the roof structure. Featuring improved roof ventilation and heat dissipation, as well as fast installation, the Sunshine tiles can not only improve solar power generation efficiency, but also help households lower energy costs while reducing their overall carbon footprint.

What is a flexible solar module?

In the field of green energy today, flexible modules are increasingly gaining attention. Flexible modules, as the name suggests, refer to solar photovoltaic modules that can be flexibly bent and folded. This new type of solar module, due to its unique physical characteristics, presents endless possibilities in photovoltaic applications.
