

## SolarTech Power Solutions

# Solar booster water pump with two inlets and two outlets

## Overview

---

What is a solar pump booster in the SQB series?

The solar pump booster in the SQB series is used for pumping water from wells and ponds, increasing water pipe pressure, garden irrigation, and automatic water supply systems. It features a simple construction, economical design, high durability, and reliability. Voltage: DC 24V, DC 48V, DC 72V. Power: 210W~750W. Max. head: 60m.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

Is solar booster water pump Legit in China?

The Solar Booster Water Pump is a top choice in our Water Pump collection. To validate a water pump supplier's legitimacy in China, conduct thorough background checks, request business certifications, visit their facilities if possible, and seek client feedback.

What is a solar water pump kit?

The Solarriver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can

be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

Does a poly solar panel kit have a submersible well pump?

The Poly Solar Panel Kit has a 12 V submersible well pump. It's ideal for bigger applications, such as farms, irrigation or camping sites. The pump benefits from the highest engineering design, since it can be submersed up until 30 meters underwater without any problem.
