Solar powered portable outlet in Morocco

Overview

Which power outlets do they use in Morocco?

Morocco uses Type C and Type E power outlets. Type C outlets are one of the most widely-used electrical outlets in Europe, while Type E is common in France as well as Morocco and is compatible with Type C.

What type of plugs does Morocco use?

Morocco uses power outlets and plugs of types C & E. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug.

Can I use a universal power adapter in Morocco?

Universal power adapters usually come with multiple plug types and can be adjusted to fit Morocco outlets and many others. If your devices are not compatible with the voltage in your destination country, a voltage converter or transformer will also be necessary to convert the voltage to the appropriate range for your devices.

Do I need a travel adapter to plug a charger into Morocco?

However, it is possible you'll need an adapter to plug the charger into a Morocco outlet. Morocco uses electrical outlets and power plugs of types C & E (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter.

Can I connect my laptop charger to an electrical outlet in Morocco?

Yes, you can connect your laptop charger to an electrical outlet in Morocco as long as the outlet is compatible with the charger's voltage and plug type. In

Morocco, the standard voltage is 127V and the standard frequency is 50Hz.

Do you need a voltage converter in Morocco?

The good news is you can charge many basic electronics like cell phones, tablets, and laptops without a voltage converter in Morocco. Most chargers and built-in batteries today are dual voltage, meaning they can safely handle 100-240V. For these items, you just need a Type C or E adapter so the plugs fit the outlets.
