Overview

Are tamesol solar panels made in Spain?

Product Range and Advantage: Tamesol offers a variety of solar panels made in Spain, ranging from monocrystalline to polycrystalline. Their solar panels are known for high efficiency, durability, and optimal performance even in low light conditions.

Are solar energy solutions a viable option in Spain?

Here's why solar energy solutions are an appealing proposition in Spain: **The Abundant Sunlight:** Spain is blessed with ample sunshine, averaging over 2,500 sunlight hours each year. Utilizing solar panels under such optimal conditions maximizes energy production, thereby significantly reducing electricity bills.

What certifications do solar panels have in Spain?

Another important certification is the IEC 61730 which deals with the safety of the panel. It ensures the solar panel has been tested for mechanical stress and safety from fire hazards. Additionally, Spain also follows the UNE 206007 IN standard specifically for self-consumption photovoltaic systems.

Who makes atersa solar panels?

Location and History: Atersa, based in Valencia, has been involved in the solar industry since 1981, making it one of the most experienced solar panel manufacturers in Spain. **Product Range and Advantage:** Atersa offers a wide range of solar panels, including monocrystalline, polycrystalline, and BIPV panels.

Are solar panels safe in Spain?

In Spain, solar panels are subject to various certifications to ensure their efficiency and safety. One such certification is the IEC 61215, which certifies that the solar panels have undergone testing for performance under different

climate conditions like rain, high temperature, and high humidity.

Why should you invest in solar panels in Spain?

Testimonials from diverse locales in Spain reflect the company's capacity to deliver excellence, ensuring each solar panel—whether in Altea or La Nucia—functions as a tiny powerhouse, contributing to a global green grid.
