# Suntec Photovoltaic Solar Panels

## Overview

---

Who makes Suntech Solar panels?

Suntech, founded in 2001, is a solar panel manufacturer based in San Francisco. On this page, you can find a complete list of solar panels from Suntech and compare models side-by-side. Quick facts about Suntech solar panels in the EnergySage Buyer's Guide: Are Suntech solar panels best for you?

How to choose the right solar panels for your needs.

Who is Suntech Power?

Suntech Power is a Chinese solar panels manufacturer that has been on the market since 2001. They offer monocrystalline modules for various applications. Suntech Power is known for its fully automated production line, allowing engineers to trace all incoming materials from suppliers to ensure quality.

What is the cost of Suntech Solar panels?

As of early 2023, Suntech's solar panels range from \$0.7 to \$0.9 per watt before installation costs. Their latest models achieve up to 22.5% efficiency, and customer and employee feedback about Suntech is largely positive.

What are Suntech Solar panels used for?

Suntech Solar panels are used for building residential solar systems, solar farms, and large commercial projects. Suntech specifically offers bifacial modules for large-scale systems, which provide an additional up to 30% production on the rear side. Suntech solar panels have a competitive cost.

Are Suntech Solar panels a good investment?

Stable performance. We like these panels made in China because this product has the best price-quality relation that we can find in the market nowadays.

Definitely is a good investment. Suntechs solar modules have a very strong attractiveness in terms of its cheap price. Nevertheless, they can achieve very satisfactory levels of performance.

Is Suntech a good company to buy solar panels in China?

The best of the solar panels that we have bought in China. It has very good value for the money. It has exceeded our expectations in terms of performance. We deal Suntech PV modules because this company offers PV modules at very low-price.
