Tajikistan electric tool lithium battery

**FLEXIBLE SETTING OF
MULTIPLE WORKING MODES**

Overview

Is battery recycling a problem in Tajikistan?

In a report released at a news conference in Dushanbe, the Minister of Transport of Tajikistan Azim Ibrohim noted on July 28 that battery recycling is the main problem regarding the use of electric vehicles (EV) in Tajikistan. According to him, it is about establishing workshops with appropriate equipment for recycling lithium batteries.

Does Tajikistan need EV maintenance & charging stations?

The minister points to the necessary of building EV maintenance and charging stations in the country; photo / fergana.ru. In a report released at a news conference in Dushanbe, the Minister of Transport of Tajikistan Azim Ibrohim noted on July 28 that battery recycling is the main problem regarding the use of electric vehicles (EV) in Tajikistan.

Does Tajikistan have an electric transport program for 2023-2027?

On October 31, 2022, the government adopted the program for development of electric transport in Tajikistan for 2023-2027. The program, in particular, provides for exempting the import of electric transport from payment of taxes and customs duties.

How many electric vehicles have been built in Tajikistan?

“To-date, 36 EV maintenance and charging stations have been built in Tajikistan,” the minister said. He further added that about 1,600 electric vehicles have been registered in Tajikistan; 800 of them have been imported into the country over the first six months of this year.

Will Tajikistan speed up production of electric vehicles?

Recall, the Government of Tajikistan in March this year instructed relevant ministries to speed up the process of the establishment of production of electric vehicles inside the country.
