

## SolarTech Power Solutions

# Tajikistan outdoor power supply brand new field

## Overview

---

Can Tajikistan become a net energy exporter?

The Government of Tajikistan aims to transform itself from a net energy importer to a net energy exporter, on the strength of its potential for hydropower and solar power production. According to the World Bank, Tajikistan's power production is 92 percent hydropower, six percent hydrocarbon, and two percent from other sources.

Does Tajikistan have a hydro power plant?

With abundant water potential from its rivers, natural lakes and glaciers, Tajikistan is almost exclusively reliant on hydro for electricity generation. It is home to some of the world's largest hydropower plants and is ranked eighth in the world for hydropower potential with an estimated 527 terawatt-hours (TWh).

How much power does Tajikistan have?

According to the World Bank, Tajikistan's power production is 92 percent hydropower, six percent hydrocarbon, and two percent from other sources. Tajikistan's hydropower potential is estimated at 527 billion kWh per year, which exceeds the existing electricity consumption of the countries of Central Asia by 300%.

Does Tajikistan need solar power?

The government is actively seeking support for development of solar power, noting that the country has an average of 300 sunny days per year, with mountain terrain unsuitable for farming allowing space for solar farms. Tajikistan is encouraging the use of electric vehicles, particularly in Dushanbe.

Will Tajikistan encourage electric vehicles in Dushanbe?

Tajikistan is encouraging the use of electric vehicles, particularly in Dushanbe.

This will require a significant increase in charging and monitoring stations. IEA: Tajikistan 2022 - Energy Sector Review.

Which HPPs are operated by Barki Tojik?

The biggest existing HPPs operated by state power utility Barki Tojik are Nurek (3,000 MW), Sangtuda 2 (670 MW), Baipaza (600 MW), Golovnaya (240 MW), Sangtuda 2 (220MW), and Qairakkum (126 MW). Most are undergoing refurbishment and modernization. The power system of the country is undergoing radical transformation and rapid modernization.
