Tariffs on Algerian PV module exports

Overview

How much is a feed-in tariff in Algeria?

The preferential feed-in tariffs will be guaranteed for the 20-year term of the PPA. Base tariffs will range from 12.75 Algerian dinars per kilowatt hour (DZD/kWh) to 15.94 DZD/kWh (EUR 0.12 per kilowatt hour (EUR/kWh) to 0.15 EUR/kWh based on prevailing exchange rates) for solar photovoltaic projects.

What is the tariff structure in Algeria?

The tariff structure in Algeria plays a pivotal role in the importation of goods, impacting the overall cost of doing business for traders. Tariffs can generally be categorized into two major types: ad valorem tariffs and specific tariffs.

How much solar power does Algeria have?

By the end of 2023, Algeria had 437 MW of solar generation capacity, according to the national Commission for Renewable Energies and Energy Efficiency (CEREFEE). The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south.

Can Algeria replace its gas and oil exports?

To gradually replace its gas and oil exports, Algeria aims to position itself on the international energy scene as a supplier of blue hydrogen (produced by steam reforming gas equipped with carbon capture technology) and green hydrogen (produced via electrolysis powered by renewables).

Why is it important to understand Algeria's import and export regulations?

Hence, grasping the intricacies of Algeria's import and export regulations is not merely advisable but necessary for both new and seasoned traders aiming to develop profitable business engagements within the Algerian territory.

What is Algeria's solar power supply chain?

The Algerian solar power supply chain grew significantly in the last decade and now seeks to add IPP development, engineering and design capabilities, EPC services, inverters manufacturing, storage solution manufacturing, universal certification expertise, and operations and maintenance services.

Tariffs on Algerian PV module exports

Chinese module exports up 5% MoM despite declines in the ...

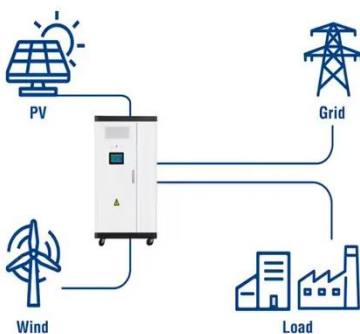

Nov 29, 2024 · Despite imposing a 10% tariff on imported modules in June, the country still relies on imports due to limited local production, with recent demand driven by local ground-mounted ...

Feed-in tariff for solar PV installations - Policies

Mar 10, 2025 · Data is now available through the .Stat Data Explorer, which also allows users to export data in Excel and CSV formats. On 23rd of April 2014 Algeria adopted feed-in tariff ...

Utility-Scale ESS solutions

US hits SE Asia with up to 3521pc tariffs on solar ...

Apr 22, 2025 · The Trump administration is largely targeting Chinese companies that have set up solar panel factories in Cambodia, Vietnam, Malaysia and ...

Impact of US trade barriers on solar PV supply chain:

...

Apr 10, 2025 · To avoid this risk, Chinese solar manufacturers have mostly stopped direct exports to the U.S. in recent years. Therefore, even with Trump's new tariff hikes targeting China, the ...

Algerian president 'backs' Trump's 30 percent tariffs on Algeria

Jul 21, 2025 · It's his business", said the Algerian President on 18 July. [Getty] Algerian President Abdelmadjid Tebboune said he supports US President Donald Trump 's 'sovereign' decision to ...

New US solar tariffs on Southeast Asia to raise ...

Dec 3, 2024 · A new round of U.S. solar panel import tariffs on Southeast Asian producers is expected to raise consumer prices and cut into producer profit ...

Feed-in tariff (FIT) for solar PV installations (photovoltaic)

Algeria , Policy , Ministerial order that fixes the guaranteed purchase tariffs for electricity produced from installations that use photovoltaic (PV) energy, and the conditions that apply to their ...

Recent tariffs prompting caution from US solar PV suppliers ...

Apr 29, 2025 · The recent domestic content regulations and trade policies have prompted caution in the US from suppliers, according to a report from Anza.

Solar costs in India to rise as China cuts rebates, ...

Nov 22, 2024 · China's decision to reduce export rebates on solar modules and components, effective 1 December, is set to increase electricity tariffs in India, ...

Biden to increase Section 301 tariffs on solar ...

May 14, 2024 · Under Section 301 of the Trade Act of 1974, solar cells - whether assembled or not into modules - tariffs will increase from 25% to 50% this ...

Feed-in tariffs (FiT) for RE in Algeria [10,73,75].

The growing interest arises from developing solar cells with rear-side metallization, and their integration into glass-glass modules enable the utilization faces of the bifacial PV module to be

China's PV module exports reach 39 GW in Jan-Feb 2025, ...

Mar 28, 2025 · InfoLink's customs data shows that China exported 22.26 GW of modules in January 2025, up 2% YoY from 21.91 GW. However, exports in February dropped to 16.26 ...

Five Points of Impact! China's PV cuts 4% export

tax rebate ...

Nov 18, 2024 · This represents a 4% decrease in the rebate rate for photovoltaic exports, significantly impacting China's PV market, which heavily relies on exports. Export tax rebates ...

Updated Solar Import Tariffs , Norton Rose Fulbright

Apr 22, 2025 · The US Commerce Department set final countervailing and anti-dumping duty rates on Monday for crystalline solar cells and modules imported from four south

US Tariffs, Europe Slowdown Reshape Global Solar Panels ...

May 7, 2025 · The U.S. government finalised steep levies on imports of solar cells and modules from Vietnam, Malaysia, Thailand and Cambodia in April, following two rounds of tariffs in June ...

New US tariffs on solar

imports threaten to phase out Chinese solar

Apr 22, 2025 · Solar photovoltaic (PV) module manufacturers in Malaysia owned by China-based players could face the risk of being phased out due to the latest US-imposed duties on solar ...
