

## SolarTech Power Solutions

# Tokyo container generator

✓ LIQUID/AIR COOLING

✓ PROTECTION IP54/IP55

✓ PCS EMS

✓ BATTERY /6000 CYCLES

## Overview

---

What is NYK Tokyo container terminal?

"NYK Tokyo Container Terminal Begins Operations of Four State-of-the-Art Transfer Cranes" - The NYK Group goes beyond the framework of a comprehensive logistics company to co-create the necessary value for the future through the deepening of core businesses and the growth of new businesses.

What is a near-zero emissions transtainer®?

The recently delivered Near-Zero Emission Transtainer® RTG cranes are equipped with a large battery bank and a small diesel generator set and will achieve zero emissions in the near future by replacing the minimized diesel engine generator set with a hydrogen fuel cell power pack when the hydrogen supply infrastructure is fully developed.

What size genset container do I Need?

The container is fixed with an inspection door at each side, also equipped with a ladder outside for easy inspection and maintenance. -According to genset dimension, below 1000 KVA, it will use ISO 20'ft GP or HQ container and 40' HQ container for above 1250KVA.

What are mg containerized gensets?

MG containerized type gensets use advanced sound-absorbing materials, scientific and unique design in airflow and noise control. The container is with CSC certification, in line with international container security convention, ensures shipping directly as a standard container, and greatly saves the cost of transportation.
