Uninterruptible power supply for domestic use in Argentina

Overview

What is the standard power socket voltage in Argentina?

All power sockets in Argentina provide a standard voltage of 220V with a standard frequency of 50Hz. You can use all your equipment in Argentina if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.

Does Argentina use a voltage converter?

Not a voltage converter — only for dual-voltage devices (100-250V) In Argentina, they use Type C and I power plugs and outlets. Type C outlets have two round prongs and no grounding pin. Type E and F plugs usually fit too, but grounded plugs will need an adapter.

What type of plug does Argentina use?

Argentina has standardized on the Australasian type I plug and socket system, but because of the widespread use of the Europlug (Type C), many households and hotels have hybrid sockets supporting both types C and I. What is the mains voltage in Argentina?

The voltage in Argentina is 230 volts and the frequency is 50 Hz.

Do you need a voltage converter in Buenos Aires?

If your device or power adapter is not dual voltage or you are unsure, and the voltage and/or frequency in Argentina differs from your own country, you should use a voltage converter when plugging in your devices and power adapters in Argentina. What power plug types and electrical outlets are used in Buenos Aires?

.

Are there electrical outlets in Argentina?

No, the electrical outlets in Argentina are different from those in the United States. In Argentina electrical outlets of types C & I are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Argentina?

The electrical outlets and power plugs in Argentina are of types C & I (see images).

Can I connect my laptop charger to an electrical outlet in Argentina?

Yes, you can connect your laptop charger to an electrical outlet in Argentina as long as the outlet is compatible with the charger's voltage and plug type. In Argentina, the standard voltage is 220V and the standard frequency is 50Hz.
