

## **SolarTech Power Solutions**

# **United Arab Emirates electrical energy storage container factory is in operation**

## Overview

---

Why is Abu Dhabi launching a taqana energy solutions factory?

Mohammed Ali Al Kamali, Chief Trade and Industry Officer, ADIO, said: “The inauguration of the TAQANA Energy Solutions factory marks a pivotal milestone in advancing Abu Dhabi’s industrial capabilities and reinforcing the emirate’s leadership in the manufacturing sector.

What is Themar Al Emarat microgrid project – battery energy storage system?

The Themar Al Emarat Microgrid Project – Battery Energy Storage System is a 250kW lithium-ion battery energy storage project located in Al Kaheef, Sharjah, the UAE. The rated storage capacity of the project is 286kWh. The electro-chemical battery storage project uses lithium-ion battery storage technology. The project was announced in 2019.

Why is Abu Dhabi launching a new factory?

The factory launch aligns with the UAE’s “Make it in the Emirates” initiative and builds on the nation’s commitment to bolstering local industries. The launch also aligns with the Abu Dhabi Industrial Strategy (ADIS), which aims to make Abu Dhabi the most competitive industrial hub in the region.

Will the UAE deploy 300mw/300mw of Bess capacity by 2026?

It follows EWEC’s recommendation made this time last year that the UAE should deploy 300MW/300MWh of BESS capacity by 2026. It didn’t reveal when it hoped the 400MW (MWh capacity undisclosed) would come online, so it’s not clear whether this is part of a longer-term target or whether its forecasted needs have increased.

What is Mohammed bin Rashid Al Maktoum solar power plant – thermal energy storage system?

The Mohammed Bin Rashid Al Maktoum Solar Thermal Power Plant – Thermal Energy Storage System is a 100,000kW concrete thermal storage energy

storage project located in Seih Al-Dahal, Dubai, the UAE. The thermal energy storage battery storage project uses concrete thermal storage storage technology.

How many GWh will a storage system produce in 2022?

The successful global experience of implementing storage systems is about 0.5 GWh for 2020-2021 and will be increased to 1.5 GWh in 2022. A number of pilot projects for the introduction of storage devices in the United Arab Emirates is being jointly prepared.
