

## SolarTech Power Solutions

# Victoria Home Energy Storage Power Supply

## Overview

---

How many energy storage projects are there in Victoria?

557 MW of commissioned energy storage capacity and 12 utility-scale storage projects with a combined capacity of 1,115 MW under construction or undergoing commissioning at 30 June 2024. Figure 4: Emissions from electricity generation in Victoria, 2013/14 to 2023/24.

What is the Victorian big battery?

We pay our respects to their Elders past and present. The Victorian Big Battery is a 300 MW grid-scale battery storage project in Geelong, Australia which stores enough energy in reserve to power over one million Victorian homes for 1/2 an hour. The battery has a 250 MW grid service contract with AEMO under direction from the Victorian Government.

What percentage of Victoria's Electricity is renewable?

For 2023/24, renewable energy was 37.8% of Victoria's electricity generation – and we've closed out the financial year with a pipeline of projects that puts Victoria well on track to achieve our next goal of 40% renewable electricity by 2025. Figure 2: Victorian renewable electricity generation share, 2013/14 to 2023/24.

What is Victoria's new battery?

The battery has a 250 MW grid service contract with AEMO under direction from the Victorian Government. It supports Victoria's clean energy transition and secure reliable, affordable power for Victorians. The 300 MW / 450 MWh battery consists of 210 Tesla Megapacks covering an area smaller than the football oval at Geelong's GMHBA Stadium.

Who owns Ballarat energy storage system?

It is owned by AusNet Services and operated by Energy Australia. The Ballarat Energy Storage System provides backup power and grid stabilisation, vital to

maintaining a reliable and affordable energy supply in Western Victoria. The Gannawarra Energy Storage System is located at the Gannawarra Solar Farm in Wandella, Victoria.

What is Victoria's largest battery?

Victoria's largest battery under development right now are four hour batteries, with ground breaking on the first last week at Wooreen. But efforts to bring long duration storage into the Victoria grid need to start immediately.

## Victoria Home Energy Storage Power Supply
