Warsaw household energy storage power wholesale price

Overview

How can Poland reduce wholesale electricity prices?

The cheapest, fastest, and future-proofed solution for Poland to decrease its wholesale electricity prices is to deploy as much wind and solar power as soon as possible. Poland's reliance on costly domestic coal means it now has the most expensive electricity in Europe.

Are Poland's electricity prices the most expensive in the EU?

Poland's wholesale electricity prices are now the most expensive in the EU, leading the ranking for several months in a row. Source: Ember's analysis of entso-e data (excluding Cyprus and Malta). In April 2020, Poland's wholesale electricity prices exceeded Greece's and since then have continued to be the most expensive.

How does a supplier buy electricity in Poland?

In a competitive market, suppliers buy electricity on the Polish Power Exchange (TGE) or via bilateral contracts and then sell it to consumers. For most customers, the energy price portion has traditionally been a fixed rate per kWh (often set in a supplier's tariff or contract).

Why are electricity imports increasing in Poland?

Electricity imports are increasing Because of Poland's higher prices, Poland imported 8% of its electricity in the first nine months of 2020. 80% of these imports (8.6 terawatt hours out of 10.4 terawatt hours) were from Germany, where wind and solar leads to hours of very cheap electricity prices.

What is the largest source of electricity in Poland?

Coal: Coal (both hard coal and lignite) remains the largest source of electricity. In 2024, coal-fired power plants produced roughly 57-58% of Poland's electricity. This is a marked decline from about 70% in 2022, reflecting a steady downward trend.

Does Poland support dynamic electricity pricing?

In summary, Poland's legal and market framework in 2025 fully supports dynamic electricity pricing, making it one of the first in the region to roll this out at scale to households, in line with broader EU energy market integration goals. By law, all large energy suppliers in Poland must offer dynamic pricing contracts as of 2024.
