

## **SolarTech Power Solutions**

# **Which is the best large energy storage cabinet in Israel**

## Overview

---

How much storage capacity will allied infrastructure have in Israel?

These projects will have a total storage capacity of 1,300 MWh, potentially increasing to 1,900 MWh after entering the deregulated market. Ormat Technologies, in partnership with Allied Infrastructure, also announced it won tolling agreements for 300 MW/1,200 MWh of storage, marking its entry into Israel's large-scale energy storage sector.

How much does a battery cost in Israel?

Israel's storage tender sets prices between \$0.0056 and \$0.0085 per kW, with kWh figures therefore at \$49.41 to \$74.20 per kWh. Israel has awarded contracts for 1.5 GW of high-voltage battery storage capacity across three regions, marking a significant milestone in the country's energy transition.

Why should you choose Enlight for your energy storage project?

As the importance of energy storage for grid stability grows, Enlight is at the forefront of the industry with our expertise in both standalone storage projects and Solar-plus-storage projects. We specialize in the development of battery energy storage system (BESS) projects, which are crucial components in advanced energy storage solutions.

What is a battery energy storage system (BESS) project?

We specialize in the development of battery energy storage system (BESS) projects, which are crucial components in advanced energy storage solutions. Our large portfolio of generation assets with grid connection enables us to add BESS to existing projects and develop additional solar-plus-storage facilities.

How many MW of electricity will be built in Israel?

Northern Israel: Bi-Liht, Noy Agira, Allied, and Ormat will develop four facilities totaling 520 MW at an average tariff of 2.0 agorot per kW. Arava: Enlight and EDF will establish three projects with a combined capacity of 420 MW at a 3.0

agorot/kW tariff.

Will Enlight get 300 MW of storage rights?

ESS News had previously reported on some of announcements made already by winning developers, including Enlight securing 300 MW of storage rights through its Neot Smadar and Ohad projects, which will initially operate under regulated tariffs before transitioning to the merchant market.
